

Discover the unparalleled expertise of Titanium Energy Services, a unique multi-services company with a wealth of experience in the oil & gas industry. Our pumping services division is growing its chemical injection services specializing in coiled tubing support and acidizing. Our growing fleet of chemical injection equipment is strategically stationed in our various locations to service across Western Canada.

## Equipment Specs:

- Up to 1.8m<sup>3</sup>/min
- 68.9MPa Max pressure
- Dual 1.5m<sup>3</sup> Mixing Tanks
- True Twin 600HP Triplex, 1200HP Total
- Ability to pump well servicing fluids and chemicals
- Operator Cabin w/c full data acquisition
- 2x Chem add pumps
- 2" Treating Iron

## TWIN PUMPERS

The Titanium Energy Services Twin Pumper is tailored for demanding oil & gas operations.

Equipped with a true twin 600HP triplex system, totaling 1200HP, the Twin Pumper delivers exceptional pumping power, capable of handling a wide range of fluids and chemicals. With the capacity to pump up to  $1.8\text{m}^3/\text{min}$  at a maximum pressure of  $68.9\text{MPa}$ , this powerhouse equipment ensures efficient and effective fluid delivery in various well servicing tasks.

The operator cabin features full data acquisition capabilities, enabling real-time monitoring and control of pumping operations. Its dual  $1.5\text{m}^3$  mixing tanks provide ample capacity for blending chemicals and fluids on-site, enhancing operational flexibility.

Additionally, with two chemical additive pumps and 2" treating iron, this equipment offers comprehensive functionality for fluid treatment and delivery.
